Castro 'Guarantee' By U.S. Scored

Cuba has a population of over 6 million people. Since Castro's Communists took over the Cuban people and their government, the Cubans have been told there would be no free elections. They would be Commie-ruled and that was that.

These 6 million-plus Cuban Americans have no freedom as we know it, no choice of leaders by the ballot box, but are under complete domination by Castro's Communists, who are in turn ruled by Khrushchev policies and agents.

According to published newspaper reports and comments by newscasters on radio and TV, the present Administration has "guaranteed" we would not seek the overthrow of this Communist government in our hemisphere. We would prohibit attacks on Castro's rule by anti-Communist Cubans in America. This is the kind of victory J.F.K. had over Khrushchev.

The 2,000-mile-range bombers and the 200-odd MIG aircraft and nuclear weapons were in Cuba as far back at last August. The missiles and sites were under construction in early September. Yet our present Administration and its spokesman in the State Department were telling the American people the "Russian arms" in Cuba were of defensive nature only. For the benefit of the State Department, the CIA and President Kennedy, there are no such things as "defensive weapons."

The Administration has handed Laos to the Reds, went back on its word to the "Cuban Freedom Fighters" in April, 1961, on the beaches of Cuba, permitted the building of an "anti-freedom wall" around Berlin, feeds and aids Red Poland and Red Yugoslavia, and is now about to tell over 6 million Cuban-Americans they must accept a Communist government.
